LAGOON 40

AT EASE IN A BREEZE

With this model, we start taking a look at the leading manufacturer of liveaboard multihulls - more than 6,000 Lagoons have been built since 1987! During our complete test of the Lagoon 40 back in January 2018, we really liked the boat's overall balance. The other striking features: a helm with real sensations, with beautiful agility to the platform, resulting from the weight centering efforts, the particular geometry of the aft-set rig and a really efficient sail plan. Easy to handle, pleasant and comfortable, the Lagoon 40 is a fun catamaran to sail in a breeze: we frequently exceeded 15 knots when we sailed more than 250 miles aboard. A reasonable catamaran that's versatile and well-designed, she will delight a couple or a family wandering the oceans or around the coast.
